

The Barn

General Information

The Barn is a flexible space that can be configured and styled to suit your individual requirements. Refurbished in 2013, it features polished concrete floors, pendant lighting and large windows with views out over our gardens and across to Maleny.

The internal space is approximately 6 metres x 10 metres and the adjoining deck is approx 6metres x 8 metres.

Inside, there is no fixed furniture so the space can be transformed from a romantic candlelight dinner to a conference space for 30 or even a workshop/art class area. We offer up to 30 chairs, several large tables, a white board and a wall mounted flat screen TV with WiFi connectivity. However, feel free to bring/ hire your own furniture and equipment for freedom and flexibility.

The stylish deck opens out from the Barn and offers scenic views whilst also providing opportunity for break out space or a beautiful setting for a relaxed meal.

There will be an outdoor fire-pit in place before the cool autumn weather of 2014 sets in.
